

Dear Parents,

My name is Nannan Li. It is my pleasure to teach Chinese class at a school as fantastic as SnoSprings. I hold a Master in Teaching degree from University of Washington, and I am a Washington State Certified teacher.

I love kids and treasure the time I get to spend with them. I taught Chinese and Math classes as a part-time teacher in public and private schools for many years. I recently returned to teaching, joining Mandarin Playground, after taking time off to give birth to my two cute daughters, now ages 5 and 1. I really enjoyed this teaching opportunity and had a lot of fun with kids during each class!

Teaching is a life-long learning process. Recently, I joined Washington State Chinese Language Teachers Association, where I can always learn different teaching techniques from other awesome teachers. I believe that each kid is unique and will learn at his or her own pace. My goal as a teacher is to build a safe, multicultural, and friendly environment where I could assist all kids to maximize their learning potential and foster their learning interest at the same time.

During my free time, I like traveling, shopping, listening to music, watching TV, and spending time with my family.

I am looking forward to partnering with you to provide your kids a wonderful and meaningful learning experience in the new school year!

Sincerely,

Nannan Li
Lead Teacher
Mandarin Playground
