

Dear Parents,

Hello! My name is Phoebe Witzaney and I am very excited for the opportunity to be your child's First/Second grade teacher next year at SnoSprings School. I hold a Bachelor's Degree in Early Childhood Education from Kutztown University of Pennsylvania. I have been working with children for eleven years and knew this was my passion when I started babysitting the neighborhood kids.

Throughout the years, I have enjoyed working in a variety of settings: school districts, private schools, daycares, summer camps, and youth clubs. I've taught Preschool through 4th grade. Two years ago, I had the opportunity to teach Kindergarten in Australia. Teaching abroad was an amazing experience because I had the opportunity to learn about another culture. This past year, I taught Pre-K at Cedar Crest Academy.

My philosophy is to make learning engaging and hands-on, so children will want to be lifelong learners. Nothing is more magical than seeing a child light up when they learn something new. I adore the early grades because I love how you can never predict what those bright young minds will say!

When I'm not in the classroom you can find me hiking, kayaking, snowboarding, or traveling. I am always up for an adventure and love trying new things!

I am excited to partner with you to ensure your student has a wonderful year reaching his/her full potential. Please feel free to contact me with any questions you may have.

Respectfully,

Phoebe Witzaney
